

Criminal and Juvenile Justice Information Task Force Collaborative Relationships and Funding Subcommittee

The Collaborative Relationships and Funding subcommittee will be focusing on two main objectives in the next 12 months.

The first is to identify funding initiatives (related to criminal justice information systems) that should be forwarded for inclusion in the Governor's 2017 budget bill. This includes vetting funding ideas; developing the necessary business case and background information; and presenting the funding initiatives to the Task Force and Policy Group (for possible inclusion in the Governor's budget process by September 2016).

The second primary objective is to re-brand the identity of the Task Force and to promote the four new strategies the Task Force and Policy Group have identified and approved. The specifics may be dependent on the legislature's action on the proposed changes to the Policy Group and Task Force; however, this subcommittee will focus on improving communication with the organizations and associations that are represented on the Task Force and Policy Group, including the legislature, and promoting issues impacting criminal justice information sharing.
